## **BESKRIVELSE**

Preparations for Fixed Prosthodontics is a textbook for dental students in Scandinavia in which the treatment planning and therapy performance is primarily focused on adhesive fixed prosthodontics. The book is richly illustrated with simplified drawings and clinical images. Bogen er en lærebog i faget protetik for tandlægestuderende i Danmark, Norge og Sverige. Den omhandler præparationer for faste proteserdækker og dækker et stort behov for en moderne lærebog baseret på skandinaviske principper. Teksten hviler på den klassiske præparationslære, men har fokus på de typer af præparationer, der i dag anses for mest gangbare, fx porcelænsfacader, kroner og broer i porcelæn.
